

Algorithm design and coding

Guide the robot to the batteries

Draw a path from the robot car to the batteries.

- 1 Explain the path of your robot to the batteries to a friend. Use words like **up**, **down**, **left** or **right**.
- 2 Now listen to a friend's explanation and trace the path with your finger.
- 3 Is there only one way for the robot to drive to the batteries? Tick (✓) the box.

☐

yes

☐

no
